EDUCATION

Akademia Ekonomiczno-Humanistyczna w Warszawie Poland/Warsaw

02/2023 - Present

About

- I am a frontend development student with experience working on multiple projects at university. My skills include React, and Vue.js. I strive to create beautiful and functional user interfaces and I am always eager to learn and grow in this field. With my experience and motivation, I am capable of applying my skills in practical work and making valuable contributions to projects. I am seeking an opportunity to apply my knowledge and be part of an inspiring team of developers.

CERTIFICATES

ChatGpt prompts course

I received training in using and interacting with ChatGPT, an advanced artificial intelligence technology developed by OpenAI. The course allowed me to master various aspects of working with ChatGPT, including creating dialogue systems, natural language processing, and optimizing interactions with the model. I gained practical skills in developing and fine-tuning ChatGPT models

English Language course

The English language courses I completed at the B2-C1 level were highly beneficial. I significantly improved my grammar skills and vocabulary. Additionally, my speaking abilities became more confident and fluent. Throughout the learning process, we utilized various interactive methods and authentic materials, such as articles and videos, which helped me better understand and apply the language in real-life situations. Interaction with fellow students also played a crucial role in my language development, allowing me to practice communication and exchange opinions in English. Overall, these courses greatly contributed to my advancement in mastering the English language at the advanced B2-C1 level.
